## THE RAYMOND LION

### Not Good If Detached

"Not good if detached" was a line printed on the ticket I handed a collector. The ticket had face value if the coupon was attached to the rest of the ticket. That short sentence tells a story and emphasizes a truth apparent every day. We cannot live unto ourselves and apart from the rest of the world.

Fellowship is a life giving force on which humanity thrives. It is association with others; mingling with them and seeking their counsel and companionship. Otherwise we become lonely and lose the full measure of happiness.

The community is built by people banded together for the common good of all. We are not "so good" if we are detached from one another. We need what the country offers us—the benefit of its laws, institutions, schools, churches and many other blessings that improve and enrich natural resources of mind and spirit.

Many persons say a new day dawned for them when they were delivered from themselves and recognized that they needed others.

Alone we can accomplish little. But if our lives are lost in the life of humanity, with its trials and triumphs, we cannot fail.

"Not good if detached" applies to life's higher forces of the spiritual life. Religion inspires noble thoughts, provides good motives for right living, reveals the need of contracts, the sacredness of the moral law. Then love and faith find their own, if that attachment meets its obligation.

## The Family Tree

The father of success is work. The mother of success is ambition. The eldest son is common sense.

Some of the other boys are perseverance, honesty, thoroughness, foresight, enthusiasm and co-operation.

The eldest daughter is character.

Some of the sisters are cheerfulness, loyalty, courtesy, care, economy, sincerity and harmony.

The baby is opportunity.

Get acquainted with the 'old man' and you'll be able to get along pretty well with the rest of the family.

The father had taken his small son to the county fair. About the middle of the afternoon, the boy came running up to his dad and said, 'Hey, look pop, I've found a knife.'

'Gee, said the father, 'that's a very expensive-looking knife. Are you sure it was lost?'

'Sure, I'm sure,' replied the youngster. 'I saw the man looking for it!'

You may be a fine, upstanding citizen, but it makes no difference to a banana skin.

Sweet Thing: "I can't marry him, mother. He's an athlete and doesn't believe in heaven or hell."

Mother: "Marry him, my dear, and between us we'll convince him that he's wrong."

(continued on page three)

The Fourth Ward Relief Society Officers entertained the Visiting Teachers at the home of Mrs. Eunice Snow Wednesday evening.

Ray Dewey was present to show a number of his beautiful slides, after which a tasty lunch was served.

## Mercantile Modernizes Grocery Department

A recent improvement in Raymond was the renovation and modernization of the grocery department of the Raymond Mercantile Co. Ltd. Two check-out stands replaced the old "cup and cable" system that has operated quite successfully in this store for many years. The groceries are now displayed in the most modern shelves along the walls and on a large gondola that extends the full length of the department. The carpentry work was done by local men who did a very creditable job.

Two large "Husman" refrigerator cases were installed to give the patrons of this, the oldest store in Raymond, better service and fresher vegetables. New bins were also added.

On opening day the store presented each of its customers with a half dozen lovely daffodils—a real bright spot in early spring.

Oh, yes—the tiny tots have not been forgotten for they have been provided with seats to fit in Mummies shopping cart.

The hardware department of this store was recently modernized and there are future plans to give the dry goods department a "new look".

## Mrs. T. Allan Reports On W.I. Conference

The W. I. held their monthly meeting at the home of Mrs. D. L. Paxman with 23 members and two visitors present. After singing O Canada, the flag salute was led by Mrs. T. Allan.

Each member brought a Mother's Day Card and the Roll Call was answered by each lady reading the card she drew.

Arrangements were made to hold the District Convention which is to be held in Raymond this year, at the Second Ward Church on June 20th. The ladies were asked to meet at the home of Mrs. M. Cooper to practice songs for the Convention, on Friday afternoon.

Mrs. T. Allan gave an interesting report of the District Conference which was held in Lethbridge in April, after which Mrs. R. Tollestrup favored the group with a piano solo. Mrs. D. Paxman entertained with a Reading.

Two birthday presents were raffled and the Door Prize which was donated by Mrs. R. Allred was won by Mrs. D. Paxman.

Mrs. W. Paris assisted Mrs. Paxman with the delicious lunch.

A Sunday Night Club met at the home of Mr. and Mrs. Joe Woolley this week, at which Godfrey Holmes, a special guest, showed some lovely slides.

Mrs. Woolley served a tasty lunch.

## Building Plans Discussed At Ladies Aid Meeting

The Ladies Aid met at the home of Mrs. Connie Grant Thursday for their regular meeting. Special guests present were Bill Attwood, Jack Ward and Peter Vanderhilt who discussed business with the ladies with regard to the new addition to the Church. The plans have been drawn up, and the next move is to raise enough money.

Forty dollars was realized from the Pantry Sale which was held recently, which will go into the Building Fund. Mrs. McKean and Mrs. Allan were in charge of the Sale.

At the close of the meeting a delicious lunch was served by Mrs. Grant and Mrs. Violet McMahon.

## GRADE ONE REGISTRATION

PARENTS: All children who reach the age of six years during the current year, 1952, are to be registered with Mr. J. O. Hicken, Principal, at his office in the Raymond Public School on or before the sixteenth day of June, 1952.

THE RAYMOND SCHOOL BOARD

## Your Chamber of Commerce

What is a Chamber of Commerce? A group of businessmen devoted to prove that the sun shines all the time in our municipality. Public-spirited citizens banded together to see that the town enjoys the highest possible standard of living. Supporters of free enterprise and freedom vigorously opposing collectivism and slavery. Businessmen trying to bring new industry and more tourists to this area. These are some of the most commonly held ideas about the Chamber of Commerce. Whatever is said about the Chamber of Commerce, there is one thing sure—it is, or should be, one of the most important organizations in the town. With the church and the municipal government the Chamber of Commerce forms a strong pillar supporting the welfare and the progress of the community.

The work of the Chamber of Commerce touches nearly every citizen. In most towns the Chamber of Commerce is responsible for tourist promotion. In others it undertakes the work of an industrial commissioner, seeking new industry for the town and district. Usually, it takes a leading part in community affairs, improving relations between the farmers and the businessmen, sparking community interest in education, running "Get-Out-the-Vote" campaigns at election time, taking a lead in fire prevention and health and safety work, sponsoring clean-up and beautification weeks, organizing the Santa Clause parade at Christmas and a host of similar projects. Few Chambers, of course do all these things because they are in the main a volunteer organization and in many communities even the secretary is a volunteer, receiving perhaps an annual honorarium.

It was a real reunion the other day at the Howard Melchin home. It was not his immediate family but his "Family of Transport Drivers" and the occasion marked the first time since the business was started that all the drivers were home at the same time.

## Provincial Matters Too

The interest of the Chamber of Commerce is not, however, confined only to local matters. Just as the citizen of a municipality is also a citizen of his province and of his country, so the Chamber of Commerce has provincial and federal interests in addition to its local activities. In most provinces there is a provincial Chamber of Commerce, and indeed many regions within a province have their associations to advance the interests of their particular region. At the federal level the activity of the Chamber of Commerce is coordinated and presented to the federal government through The Canadian Chamber of Commerce—the national federation of more than 640 Boards of Trade and Chambers of Commerce. The policy of this national group is determined by a vote of all the member Boards—each of which has one vote of equal strength.

The national Chamber undertakes public relations programs to explain the virtues of the private enterprise system. Similar programs are often undertaken by the local Boards. Many of them have produced booklets, radio programs and undertaken other publicity projects to bring to the attention of their fellow citizens the case for private initiative and a traditional Canadian way of life.

## A Stabilizing Influence

An organization of this kind is a stabilizing influence on a community. It is instrumental in focusing greater attention on municipal, provincial and national affairs. It brings about greater understanding among various segments of the community and it makes

(continued on page two)

## Canadian Citizenship

By Tom Wood

(Another of the essays written by High School students for the Rotary Club contest.)

For decades and decades our fathers and forefathers have strived and worked for a Canadian democracy. Today, we, the robust youth of the nation, have the outstanding results: Canada—a nation of freedom from coast to coast. Canada upholds the right to possess your own home, your own land, your own business. Canadian citizenship means the right to vote, when of age, by a free and secret ballot; to vote as you wish, to choose your own government. Canada offers jobs to the unemployed, pensions for the aged, homes for the blind, and compensation and allowances for almost every walk of life. Canada, with her young, thriving industries offers countless opportunities to her citizens. We may worship of our own free will and choice. She is a young, rich country, throbbing with freedom and opportunity.

You and I, your friend and my friend, should be everlastingly proud of Canada, the Union Jack, and what they represent. We should use her many freedoms and opportunities with thankful, lightened hearts. For, she is ours, yes—ours; the youth of today, but—the citizens of tomorrow.

## Many Take Advantage Of "Hospital Day"

The Hospital Auxiliary were well pleased with the number of citizens who took advantage of becoming better acquainted with the facilities offered by their hospital, on Hospital Day.

Visitors were greeted by Idale Kenney and Phyl Meeks and Manilla Mel-drum presided at the "Guest Book. Norma Meldrum, Anne Turner, Irene Miller and Miss Buchnell, the Hospital Matron, conducted the tour through the Hospital ending up in the Nurses Dining Room where a tasty lunch was served by Mrs. Dorothy Dahl and Mrs. Ball.

Friends of Mrs. Hellawell will be sorry to learn that she is a patient in St. Michaels Hospital suffering from rheumatic fever and extensive heart damage.

## \$300 Collected In Cancer Crusade

President Fern Thompson conducted the Ladies Auxiliary Meeting held last week. During the business meeting plans were made for a Bake Sale and it was decided to make a quilt to raffle.

About \$300.00 have been turned in so far for the Cancer Campaign.

A party honoring Mrs. Hennie Houg-en was held in conjunction with the United Church and Mrs. Houg-en was presented with a lovely blouse. The Auxiliary also honored Mrs. Louise Winters at this party and she was presented with a box of chocolates.

Court Whist was played with Mrs. Jennie Allan receiving the prize for High Score and Mrs. Ruby Holland the Consolation.

## Erwin Johnson Wins Rug

The Boys Baseball Team wish to thank all those who so generously supported the sale of tickets for the rug raffle. The draw was made on Sunday by P. W. Cope who drew the ticket owned by Erwin Johnson.

The team realized enough money from this raffle to buy additional playing equipment as well as new caps and sweaters.

## Children Present Mothers Day Program At United Church

The Mother's Day Program planned by the Sunday School was held in the United Church on May 11th. The Chapel was filled to capacity to hear the children conduct the Service.

The "Call To Worship" by the Superintendent, Ray Attwood, opened the program and was followed by the singing of the "Doxology" with Mrs. Mildred Attwood at the piano. Much credit is due Mrs. Attwood for her musical training given the children who rendered the numbers. Greatly enjoyed and appreciated too, was the solo, "Ore-Pro-Nolis" by Tom Allan, accompanied by Mrs. Connie Grant. Mr. Ward climaxed a fine Service with his inspiring message.

Following is the program:  
Invocation: Helen Wagstaff  
Chorus: Beginners Class  
Hymn: Congregation  
Scripture Reading: Don Attwood  
Hymn: Jr. Boys  
Poem: "My Wonderful Mother" by Diane Swedish  
Hymn: Congregation  
Reading: Jr. Girls  
Prayer: Ray Attwood  
Solo: "Lord's Prayer" by Dick McKean  
Poem: "Nobody Knows" by Norma and Judy Pommen  
Solo: "My Mother" by Peter Vanderhilt

Prayer for Little Children: Gayle Dahl  
Story for Little Children: "My Home" by Frazer Grant

Chorus: "Bless This House" Faye Attwood, Marlene Wilde, Maureen Fyffe, Don Attwood and Dick McKean.

Dedication of Offering: Solo Faye Attwood

Solo: "Ore-Pro-Nolis" by Mr. Allan  
Sermon by Mr. Jack Ward  
Closing Hymn: "Home Sweet Home"  
Benediction by Mr. Ward

We ask all interested to note the change of time for Church Service Sunday School (as usual) 11:00 a.m. Church Service 12:00 noon

The congregation is asked to remember the evening's entertainment planned for Thursday June 4th at 8 p.m. in the United Church. The proceeds are in aid of the Building Fund.

Mrs. Reid Litchfield had the dream of all romantic women fulfilled on Mother's Day when she received an orchid corsage from her son Glen, who is an LDS Missionary in Samoa. The corsage, consisting of seventeen baby orchids, took four days to come from that southern isle and reached here in excellent condition.

Glen had better confine such exotic gifts to his mother or he'll have all the girls' hearts aflutter.

Mr. and Mrs. Jim McCoy have moved to Raymond from Milk River.

## Arthur Hudson Achieves King's Scout Rank

Arthur Hudson, a Troop Leader of the 1st Raymond Troop, received Scouting's highest rank in an impressive candlelight ceremony on the 13th of May, 1952. His certificate, issued by Alexander of Tunis, Chief Scout for Canada, from Government House in Ottawa, reads as follows:

"As a King's Scout you have prepared yourself for service to God and your fellow-men and have shown yourself a worthy member of the great Scout Brotherhood." Congratulations Arthur!

## LIFE GUARD APPLICATIONS INVITED

The Town of Raymond invites written applications addressed to the Secretary-Treasurer for the position of Caretaker and Life Guard at the Swimming Pool. Preference will be given those with Life Saving and Swimming qualifications.

## NOTICE RE: FIRE ARMS

It is against the law as contained in the Criminal Code to sell or give any fire arm, including an air gun, or ammunition to a minor under the age of 14 years.

Any fire arm or ammunition so carried by a minor under the age of 14 years except on his own premises is liable to seizure by any peace officer and such fire arm may be forfeited to the Crown.

The Town of Raymond has authority to pass a by-law: "For prohibiting or regulating the discharge of guns or other firearms and the firing and setting off of fire balls, squibs, crackers or fireworks."

POLICE COMMITTEE

### YOUR

### Chamber Of Commerce

(continued from page one)

the community a better place in which to live. The Chamber of Commerce deserves the support and understanding of all the citizens in the community. Every city, town and even village should have a strong and lively Chamber of Commerce if it is to make the most of its potentials and if community life is going to be as pleasant as possible.

The same applies to the national scene. Canada needs a strong national group to speak on behalf of business generally and it has such a voice in The Canadian Chamber of Commerce, which has increased in size during the last five years from 150 to 640 Boards of Trade and Chambers of Commerce in that many communities. Canada has a great future and the cities and towns of Canada are going to share in it in proportion to the effort and intelligence they individually put forth. The Chamber of Commerce is a chief means for employing this effort and this intelligence. For that reason it deserves support.

### Completes 25 Years Association With Ford

T. A. "TOM" CARTER

Sunday will mark the quarter century mark for the association of Tom Carter and the Ford Motor Co. of Canada. Back in those "good old days" the popular car on the market was the Model "T" and Mr. Carter says that it was as big a thrill to him to receive his first shipment of those cars as it is to reach this milestone in his dealings with Ford.

Besides being a successful business man in the Garden City for many years, Mr. Carter has always taken a keen interest in civic affairs. He has served the Town as Councillor, Mayor and on the Hospital Board, being one of the men responsible for the new Municipal Hospital in that town. Mr. Carter is a very valued member of the United Church.

We join with his host of other friends in wishing Mr. Carter continued success and many more years of association with his company and his friends.

## CARTER'S GARAGE

MAGRATH - ALBERTA

May 25, 1927

May 25, 1952

**T**ODAY, this well-known dealership celebrates an important anniversary—marking Twenty-Five Years of service to car and truck owners in partnership with Ford. We of Ford of Canada extend hearty congratulations on this splendid record and the progress achieved with each passing season. We know that a very large part of the success we have had is due to the continuing support of the successful and responsible business men who serve their neighbors as dealers in the products of the Ford organization in Canada.

Twenty-five years is a long period in the life of any community business. It is a record that can be achieved only through merit and conscientious effort. When you get right down to it, it is a testimonial to enterprise and service that says . . . "Here is a business which has served its fellow citizens well and truly through the years".

With you, we join in wishing the management and staff of this long established dealership still greater success in the years that lie ahead. We know they will achieve it, by deserving it.

**Canadian  
Garden Service**

By Gordon Lindsay Smith

**Be Firm**

In gardening it will pay to be firm. If one lets every seed or plant grow the garden would soon become sort of a jungle and not a very healthy or attractive jungle at that.

Nature is much too generous about germination. She is so afraid some species may die out that she starts a hundred seedlings sometimes when there is place for only one. If all these things grew they would crowd each other unmercifully and the net result would be poor spindly flowers and warped and twisted vegetables.

In almost every case where plants are started from seed and especially tiny seed, like lettuce or alyssum or poppies, they must be thinned later. In doing this naturally we pull out the poorer specimens first but in any case we must leave plenty of room for full development. If we are afraid of later damage from bugs or cutworms perhaps we will leave twice as many plants as at first, then later on we remove every other one. In certain vegetables like beets and carrots, too, we leave the plants about an inch or so apart at first then use later thinning for our first meals. When thinned properly the plants will grow more quickly, more sturdily and should be healthier.

Thinning is not always confined to seedlings. The extra big and fine blooms you usually see in the flower shows are often the result of thinning. Only in this case it will be the flower buds. Instead of letting every single rose, peony, or dahlia develop, the professionals nip off about fifty per cent or more of the buds so that those that are left will be finer and bigger. The same thing is done with fruit like apples, plums and peaches for big prime results.

**Quality**

If there is any secret about getting the finest quality in vegetables it is soon shared. The main thing is to grow these things quickly, especially the sorts of which the leaves or roots are eaten. If for some reason growth is checked, especially in the later stages, then more fibre develops and the vegetables become woody. To avoid checks, the experienced gardener pushes his vegetables with lots of cultivation, watering when necessary and feasible, and using fertilizer either natural or chemical, or both. He will also thin properly so that the plants have room and will be protected from insects or diseases.

**Protection**

Even with bugs and insects around, and there are few places in Canada where these enemies are not lurking, it is possible to grow the finest of flowers and vegetables, if one is reasonably on guard. For every pest, fortunately, there is a control or cure. The main thing is to get this control

operating at the very first sign of attack. Careful gardeners will examine any damage like wilted or partially destroyed or eaten leaves, will regard with suspicion any sudden check. Careful gardeners will also supply themselves with some sort of a duster or sprayer and the proper materials to go with them. There is all sorts of equipment available, and for the small garden it is not necessary to spend more than a dollar or two. There are also specific dusts and sprays ready for use.

As a general rule, insects that eat the foliage are attacked with a poison such as DDT, arsenic of lead, etc., while those that suck out the juices like aphids and other plant lice are controlled with preparations incorporating nicotine or tobacco solutions, lime, sulphur, or special soap. Finely ground sulphur dust is an excellent preventive for diseases like rust. Above all it should be remembered that a healthy, well-cultivated, well-fertilized garden is the first and main defense. If plants are left unthinned and surrounded with weeds, if the soil is poor and growth spindly and weak we have an ideal spot for pests to flourish.

The new Selberling Passenger Tires carry a comprehensive guarantee, for their entire lifetime, against defects in workmanship and materials, and also against damage such as bruises, cuts or impact breaks caused by potholes, stones, glass, broken pavement and all normal road hazards.

The guarantee applies, no matter how many miles are driven or how many years they are used. Adv.

Everyone, whether in city, town or country, should be alive to the danger and make sure that not a single rat goes unreported. The Alberta Department of Agriculture, co-operating with municipal pest control officers, is prepared to launch a rigorous extermination campaign in any area in Alberta where rats appear. Establishment of colonies must be prevented at all costs, says Mr. Lobay.

Rats or signs of rats should be reported immediately to the district agriculturist, pest control officer, or the Field Crops Branch, Alberta Department of Agriculture, Edmonton. District agriculturists are prepared at any time to offer information and advice on rat control. They have in their offices preserved rat specimens on display.

Rats are still coming in. Dead and alive, they are being found at widely scattered points in the province. W. Lobay, Supervisor of Crop Protection, warns that although the number reported is comparatively small, we cannot afford to relax our efforts because of colder weather. Rats move anywhere and everywhere at any time of year, and the utmost vigilance is required to prevent their establishment.

Chairman, Board of Directors,  
ALBERTA WHEAT POOL

TO THE MAN ON THE LAND

"A Personal Message"

This is a request for greater support for Alberta Pool Elevators. Plan this season to deliver your grain thereto.

The Alberta Wheat Pool is an Alberta farmers' co-operative organization. It happens that I am chairman of the board of directors. I am a working farmer like yourself. Having been chosen to head this organization, I am doing my best to make it a success.

Every bushel of grain delivered to an Alberta Pool Elevator makes an important contribution to the farm co-operative movement.

The farm co-operative movement is the greatest and most effective effort in self-help.

If you are not a patron of Alberta Pool Elevators, I ask you to be one. If at all possible, deliver your grain this season to a Pool elevator. Let us make this Alberta grain co-operative an outstanding success and a monument to the enterprise, solidarity and co-operative spirit of Alberta farmers.

The pastor had been invited out for dinner. After he had consumed a good deal of the chicken which the hostess had prepared, he leaned back in his chair and gazing out the window, noticed a fine rooster.

"My, what a fine proud rooster you have," said the reverend.

"He should be proud," replied the host, "his son just entered the ministry."

Success is making hay with the grass that grows under other people's feet.

**Good Advice**

The man who starts out with the idea of getting rich won't succeed; you must have a larger ambition. There is no mystery in business success. If you do each day's task successfully, stay faithfully within the natural operations of commercial law, and keep your head clear, you will come out all right.

#### RATIONING STEEL

Canada is finally being forced to follow the United States toward full end-use control of steel, reports The Financial Post.

Up to now Ottawa has managed to get by with an informal but effective system. But from here in, unless firm peace news from Korea or other moves bring a reversal of current U.S. policies on strategic materials, some Canadian manufacturers will be told how much or how little they can make.

Already, some of the country's biggest employers have had to submit 1952 production schedules to Ottawa. Cutbacks of as much as 25 per cent have been ordered.

Impact on employment will likely be sharp but temporary. By mid-1952, defence is expected to more than take up the slack. Also, regardless of any changes Korea may bring, some leading U.S. steelmen think there will be plenty of steel by next fall and this, of course, could affect the new Canadian policy later.

But as of now, the heat is on.

'JET'. The only polish for hot stoves. Pat Meeks is presently employed with the Alberta Government Telephones in Taber.

## "I put away my hard-earned money"

This young bank depositor recently wrote to his bank manager:

"I made a goal of \$1,000 for this year. It is two years since I opened the account with two dollars. I owe thanks to you that I put away my hard-earned money where it will benefit me... I do not wish to touch it for the time being."

Building up a bank account means work and sacrifice. But Canadians know the value of having savings handy in time of opportunity or need: they maintain 7½ million savings accounts in the chartered banks—almost twice as many as ten years ago. At the same time bank staffs have almost doubled. That, and higher wages, have increased bank payrolls almost three times.

More people use the banks, more people work for the banks than ever before.
